Chris,
I can try but ---it may be hard to determine w/out a survey. You could try doing an overlay of the Halifax county parcel search ---

Ex. 6 Personal Privacy (PP)

think it might bring up lat/longs when used with google maps but not sure how "accurate" that would be.

Did the new owners or sellers have a survey done as part of the sale? Or do you think the new owners of the property would give you a copy of their deed ----that might help and would be recent. I think Carlyn had to negotiate with the office cause they usually charge for access to deeds - so it might be faster if the owners were willing to give you a copy.

You could also ask [Ex. 6 Personal Privacy (PP)] for a copy of the deed or a survey of his residence --located next to [Ex. 6 Personal Privacy (PP)] if I recall --- as that might help too. I don't recall if we got a deed for [Ex. 6 Personal Privacy (PP)] property --- I can check.

I don't think we had any survey info --- but I'll check my files and also see if I think of something else that might help. If you don't think you can get a recent survey or deed from the current owners -- - let me know --- and I can go through the normal channels. If there's something else I could look for that might give you the information you need--- let me know. Ruth
